Amantay Suranaliev – Senior Frontend Engineer (React.js)

Location: Bishkek, Kyrgyzstan | **Email:** amantay.sv@gmail.com | Github | LinkedIn | Telegram

SUMMARY

Senior Frontend Engineer with **6+ years** of experience in **TypeScript, React, Remix, Svelte** and modern state management (**Redux Toolkit, Zustand, React Query**). At Growave, a Shopify SaaS platform serving **15,000+ merchants**, led the **React SPA to Remix SSR migration** and cut storefront **bundle size by 87%**, securing the **Built for Shopify** badge. Led the **v1 to v2 design system migration** (**38 Svelte components**) and ran onboarding **A/B tests** that increased merchant activation and app installation rate by **31%**. Uses **Claude Code**, Cursor and the OpenAI API in daily development. Mentored **50+ students** and referred **7+ graduates** into their first developer roles.

SKILLS

Languages: JavaScript, TypeScript
Frontend: React.js, Next.js, Remix, Svelte, MobX, Redux Toolkit (RTK), Redux Saga, Zustand, React-hook-form, React-Router v7, React-Window, Tailwind, Styled Components, MUI, CSS-in-JS, Tanstack ecosystem, HTML, CSS, SASS, Storybook, REST API, WebSockets, EventSources
Backend & API: Node.js, NestJS, GraphQL, MySQL, PostgreSQL, MongoDB
Testing: Jest, Vitest, React Testing Library, Playwright, Cucumber
Architecture: BFF, Monolith, Micro-frontend, Feature-Sliced Design (FSD)
DevOps & CI/CD: Docker, GitHub Actions, AWS (S3, CloudFront, ECR, ECS), Vercel, Netlify
Methodologies: Agile, OOP, Functional programming, SOLID, DRY, KISS, YAGNI, Design patterns, Unit testing, Integration testing, TDD
AI: Claude Code, Cursor, OpenAI API, Prompt Engineering
Other: Webpack, Vite, Jira, Swagger, Figma, yarn, npm, pnpm, GitHub, GitLab, Bitbucket, Git, Lodash, Chart.js, i18n, Eslint, Prettier, Responsive & mobile-first design, AB testing

PROFESSIONAL EXPERIENCE

Senior Frontend Developer (React.js, Svelte) | Growave | Bishkek, Kyrgyzstan Dec 2021 – Present
Growave is an all-in-one Shopify SaaS marketing platform serving 15,000+ merchants worldwide.

- Led the migration from React SPA to Remix SSR to meet Built for Shopify performance thresholds, reworking routes, layouts, loaders and components for server-side rendering across apps used by 15,000+ Shopify merchants.
- Reduced storefront bundle size by 87% and brought Core Web Vitals (LCP, CLS, INP) within Built for Shopify limits through code splitting, lazy loading, SVG optimization and WebP conversion, securing the Built for Shopify badge.
- Ran A/B tests on onboarding flow UI, comparing design variants and shipping the winner, which increased merchant activation and app installation rate by 31%.
- Led the v1 to v2 design system migration, rebuilding 38 Svelte components that make up the complete storefront widget suite.
- Contributed to a multi-SPA monorepo (admin, onboarding, storefront) with GitHub Flow and CI/CD on AWS (Docker, ECR, ECS, S3, CloudFront), enabling independent deployment of each app.
- Built admin panels and storefront widgets with React, Remix, React Router v7 and Svelte.
- Owned code review standards for the frontend team and maintained Vitest coverage across utils, hooks and services; partnered with QA on Cucumber E2E scenarios to reduce regressions across releases.

Frontend Developer (React.js) | Siroca Technology | Bishkek, Kyrgyzstan Nov 2020 – Dec 2021

Siroca Technology is a Bishkek-based IT company specializing in healthcare software — Laboratory and Medical Information Systems deployed across CIS and Southeast Asia.

- Developed and maintained React-based UI for a Medical Information System, enabling online appointment scheduling and patient workflow management.
- Improved page load performance by ~2x through WebP image conversion, lazy loading, and bundle size optimization across multiple product pages.
- Implemented SEO best practices and performance optimizations across multiple product pages.

Frontend developer | Oracle Digital | Bishkek, Kyrgyzstan Nov 2019 – Oct 2020

Oracle Digital is a Bishkek-based software development company specializing in web and mobile application development.

- Shipped 10+ production web applications using JavaScript, jQuery, and Bootstrap, achieving an 80% client satisfaction rate across all delivered projects.
- Developed custom WordPress themes from scratch with ACF integrations and performance optimizations; built cross-browser responsive layouts for client-facing products.
- Built cross-browser, semantic, and responsive layouts; designed the architecture of multiple frontend and server-side applications.

Frontend Mentor | IT-Run Academy | Bishkek, Kyrgyzstan (part-time) Oct 2020 – Apr 2022

IT-RUN is a leading programming academy in Bishkek offering industry-standard training in software development, preparing students for junior developer roles in local IT companies.

- Designed and delivered JavaScript curriculum across 5 cohorts (50+ students), covering modern ES6+, async patterns, and frontend architecture fundamentals.
- Guided students through building real-world projects, resulting in multiple graduates successfully entering the software industry as developers.
- Provided individual mentorship and career guidance — conducted mock interviews and leveraged professional network to refer 7+ graduates, helping them land their first developer roles.

EDUCATION

Bachelor's Degree | Kyrgyz-Russian Slavic University
