Senior Frontend Developer with 5+ years of experience building production-grade eCommerce platforms serving 15,000+ active merchants. Specialized in React and Svelte ecosystems with hands-on expertise in SSR migration (Remix), performance optimization (87% bundle size reduction), and scalable UI architecture. Experienced in leading code reviews, mentoring developers, and delivering across Shopify and BigCommerce ecosystems.

Experience

Frontend Developer

Bishkek, Kyrgyzstan Dec. 2021 - Present

Growave

- Developed and optimized admin panels and high-performance storefront widgets for an eCommerce marketing app across Shopify & BigCommerce ecosystems using React, React-Router v7, and Svelte, serving 15,000+ active merchants.
- Led the migration of a React SPA to a server-side rendered architecture using Remix, improving page load performance and SEO.
- Conducted thorough code reviews, resolved complex technical challenges, and maintained high code quality standards across the codebase, contributing to a 87% reduction in bundle size.

Frontend Developer

Bishkek, Kyrgyzstan Nov. 2020 - Dec. 2021

SIROCA Technology

- Developed and maintained React-based UI for a Medical Information System, enabling online appointment scheduling and patient workflow management.
- Built responsive, cross-browser interfaces for healthcare web applications used in clinical environments.
- Implemented SEO best practices and performance optimizations across multiple product pages.

Frontend Mentor

Bishkek, Kyrgyzstan Oct. 2020 - Apr. 2022

IT-RUN Academy

- Designed and delivered JavaScript curriculum across 5 cohorts (50+ students), covering modern ES6+, async patterns, and frontend architecture fundamentals.
- Guided students through building real-world projects, resulting in multiple graduates successfully entering the software industry as developers.
- Provided individual mentorship and career guidance, helping students build portfolios and prepare for their first developer roles.

Frontend developer

Bishkek, Kyrgyzstan Nov. 2019 - Oct. 2020

Oracle Digital

- Shipped 10+ production web applications using JavaScript, jQuery, and Bootstrap, achieving an 80% client satisfaction rate across all delivered projects.
- Developed custom WordPress themes from scratch with ACF integrations and performance optimizations; built cross-browser responsive layouts for client-facing products.
